TWO POST LIFTS

**THE WORLD'S FASTEST LIFT—UP IN 20 SECONDS DOWN IN 14...**

## Features Include:

- Hydraulic interconnected master and slave cylinder design provides smooth and fast lifting
- Synchronising cables are not required as the hydraulic system ensures fast and safe synchronisation at any level
- No need to lift before lowering
- The load is secured hydraulically at any working height without the need of mechanical locking
- Quiet Powerful oil submerged motor gives fast lifting and lowering times
- Self bleeding hydraulic system
- Low lifting height
- Asymmetric arms for maximum door clearance
- Ergonomic design control lever
- Progressive lowering and lifting speed
- The height can be very precisely adjusted

## Options: *Available at an extra cost*

- Height adaptors to facilitate picking up of 4 x 4's and vans
- Height Extension kit for high vans
- MiniMax arms
- Energy set (air and single phase)
- Special colours
